

WINCHCOMBE WANDERERS MC

A comparison has been made by some with Winchcombe and that worthy soul Abraham.

Yes, the rumour is true the club moved from the previous 'ground' of 135 years to a new stadium some 1198 days ago before taking up the tent pegs and going to pastures new on May 3rd.

The initial move was protracted by all the legal necessities and 6 month community asset laws but this move was a lot easier.

Winchcombe has been blessed with a progressive, active leadership team and various pointers have clearly shown that a transfer could/would be advantageous.

Worship, discipleship and the ability to serve the community has been at the heart of the culture. Moving, as we all know provides an opportunity to 'throw out' – get rid of lots of accumulated junk and indeed, ideas gathered over the years.

Our needs are now a bare minimum, a pulpit (such an essential Wesley tool), a loudspeaker/microphone system, hymn books or slides, communion components and then, in our case, *borrow the rest from the community centre*.

The congregation comprises no person working so 'to cut the cloth' accordingly enables us to cover our assessment more readily.

One other reason for the move is based on the more modern aspect of 'car parking' – we can now accommodate around 25 vehicles.

So our Home Ground is now Winchcombe Abbey Fields Community Centre – Cleeve Room – all games are played *at home* at 10-30am each Sunday - **ALL ARE WELCOME**

(No spying on our players please!)
